The effect of the chemical treatment on the growth of *Phragmites* was evaluated by measuring the height of the plants and the biomass of the roots. The results showed that the chemical treatment significantly reduced the growth of *Phragmites* in the treated plots compared to the control plots. The height of the plants in the treated plots was significantly lower than that in the control plots, and the biomass of the roots was also significantly reduced. These results suggest that the chemical treatment is an effective method for controlling the growth of *Phragmites* in wetlands.

US report calls for complete Iraq exit in 5 years

WASHINGTON, D.C. (AP) — A new report from the U.S. State Department calls for a complete withdrawal of Iraqi forces from Kuwait within five years. The report, which is the latest in a series of assessments, says that Iraq's military capabilities have improved since the Gulf War, but that the country's economy is in a state of collapse. It also notes that Iraq's foreign policy is increasingly aggressive, and that the country is a major threat to the stability of the Middle East. The report calls for a comprehensive strategy to deal with Iraq, including diplomatic, economic, and military measures. It also calls for a complete ban on Iraq's access to the international financial system, and for a complete embargo on all trade with Iraq.

Europeans get terror Packing mask Pakistan

PARIS (AP) — A series of terror attacks in Europe have left at least 100 people dead and hundreds injured. The attacks, which took place in London, Madrid, and Rome, were carried out by members of the Islamic militant group al-Qaeda. The group's leader, Osama bin Laden, has claimed responsibility for the attacks. In Pakistan, a man was seen wearing a mask that resembled the face of a terrorist, and was being escorted by police. The man was later identified as a member of al-Qaeda. The attacks have caused a major shift in European security policies, and have led to a major increase in military spending. The European Union has also launched a major investigation into the attacks, and has called for a complete ban on all trade with al-Qaeda.

BIR, BOC asked to be exempted from salary standardization

By Nicholas S. Bana

THE BUREAU OF INTERNAL REVENUE (BIR) and the BUREAU OF CUSTOMS (BOC) have asked the Department of Budget and Finance (DBF) to exempt them from the salary standardization program. The two agencies argue that their work is highly specialized and requires a different compensation structure. They also claim that the standardization process is too rigid and does not take into account the unique challenges they face. The DBF has agreed to consider their requests, but has also warned that if they do not comply with the program, they may face legal consequences.

7 geothermal sites become ecozones

Ministry issues directive to address investors' claim of low power rates

By Sheryl N.

THE ENERGY DEVELOPMENT CORPORATION (EDC) has issued a directive to the seven geothermal sites that have been designated as ecozones. The directive is aimed at addressing the investors' claim of low power rates. The EDC has stated that the power rates are low because of the high costs of the geothermal energy. The directive requires the investors to provide more information about their costs and to justify their claims. The EDC has also stated that it will continue to monitor the situation and will take appropriate action if necessary.
